

# Elias Mengestei

Information Technology Graduate | Aspiring Software Developer | Cloud & AI Enthusiast

**Location:** Addis Ababa, Ethiopia

**GitHub:** <https://github.com/eliasmengistie>

**Portfolio:** <https://eliasmengistie.github.io>

## Professional Summary

Recent Information Technology graduate from the University of Gondar with practical experience in software development, networking, and web technologies. Built academic and personal software projects including an Internship and Career Management System, a personal portfolio website, and an EEU Smart Bill Payment application. Completed a six-month AI-Powered Full Stack Development course and actively learning AWS cloud technologies. Passionate about solving real-world problems through technology and eager to contribute to a software engineering, IT, or cloud team.

## Education

**B.Sc. in Information Technology**

University of Gondar (2022–2026)

## Technical Skills

**Languages:** Java, JavaScript, HTML, CSS, PHP, SQL

**Databases:** MySQL

**Tools:** Git, GitHub, VS Code

**Networking:** LAN, WAN, TCP/IP, Server Configuration

**Cloud:** AWS (Learning)

**AI:** AI-Powered Full Stack Development (6-month training)

## Projects

**Internship and Career Management System (Final Year Project)**

Developed a web platform for internship and career management with online applications, advisor monitoring, and company management.

**EEU Smart Bill Payment System (In Progress)**

Designed a bill payment solution that validates customer information to reduce incorrect payments, inspired by a real-world payment issue.

**Personal Portfolio Website**

Created and deployed a responsive portfolio website using GitHub Pages.

## Experience

**IT Intern – Ethiopia Electric Utility (EEU)**

Assisted with LAN/WAN networking, server configuration, troubleshooting, and IT infrastructure support.

**Volunteer Mathematics Teacher**

Taught Grades 5–7 during a summer volunteer program.

## Certifications
